End. As stated

3rd August 2016

Titan Company Ltd registers a revenue growth of 3.6% in Q1.

Sales income for Titan Company in Q1 grew by 3.6%. Retail sales in the first quarter were adversely impacted by fewer wedding dates and a significant impact on revenues in the jewellery industry due to high gold prices. The sales income grew from Rs.2686.76 crores last year to Rs.2782.50 crores in Q1. The profit after tax for the same period dropped by 16.3% to Rs.126.69 crores this year due to an exceptional item, the Voluntary Retirement Scheme announced for its employees during the quarter. The Company reported an expenditure of Rs.96.88 crores against this exceptional item and the entire amount has been accounted for in the quarter. The Company's PBT before extraordinary item stands at Rs.270.64 crores in Q1 as against Rs.204.41 crores during the same period last year, registering a growth of 32.4% for the quarter.

The Watches Business in Q1 this year recorded a growth of 1.4%. The income of Watches Business grew from Rs.485.17 crores to Rs.491.72 crores. The Jewellery income in Q1 was Rs.2138.32 crores as against Rs.2072.91 crores, a growth of 3.2%. The Company's Eyewear business grew by 2.7% from Rs.106.93 crores last year to Rs.109.87 crores in Q1 this year. The Company's other businesses including Precision Engineering grew by a healthy 36.2%, to Rs.63.92 crores this year.

The Company has put together plans to stimulate demand for all its product categories through innovative advertising campaigns and new product launches in the coming quarters.

Retail expansion continued with a net addition of 11 stores across all its businesses in the first quarter, ending the period with a retail area of over 1.73 mn sq.ft nationally. The Company's retail chain is 1293 stores strong, as on 30th June 2016 and is expanding with growth plans in place for all its retail businesses – watches, jewellery and eyewear.

After the satisfactory completion of the accounting and legal due diligence of CaratLane Trading Private Limited (CTPL), the Company has paid Rs 357cr to acquire around 62% stake in CTPL.

Mr. Bhaskar Bhat, Managing Director of the Company stated that "The first quarter this year has been good for the Company from a bottom line perspective, the final number though, has been impacted adversely by an exceptional item, the benefits of which will accrue over the coming years. Growth has been muted and our jewellery business has grown despite a reported drop of 50% in gold imports during the first half of this calendar year. The watches business introduced a new sub-brand Octane and the Jewellery business launched Niloufer which have received a good consumer response. The wedding season in Q1 was poor which impacted sales growth in both watches and jewellery. All our brands are working on plans to stimulate demand in the coming quarter."

Notes:

- Ind AS 101 (First-time Adoption of Indian Accounting Standards) provides a suitable starting point for accounting in accordance with Ind AS and is required to be mandatorily followed by first-time adopters. Ind AS 101 allows first-time adopters exemptions from the retrospective application of certain requirements under Ind AS. The Company has applied the following exemptions in its standalone financial results:
 - a Property, Plant and Equipment were carried in the statement of financial position prepared under previous GAAP as at March 31, 2015. The Company has elected to regard such carrying amount as deemed cost at the date of transition i.e. April 1, 2015. b. Under previous GAAP, investment in subsidiaries, joint venture and associate were stated at cost and provisions made to recognise the decline, other than temporary. Under Ind AS, the Company has elected to regard such carrying amount as at March 31, 2015 as deemed cost at the date of transition.
- ii Under previous GAAP, lease payments on all operating leases were recognised as an expense on a straight line basis over the lease term. Under Ind AS, lease payments under operating leases recognised on a straight line basis as expense only if the payments to lessor vary because of factors other than expected general inflation.
- iii Under previous GAAP, employee loans were stated at the amount paid to the employees. Under Ind AS, employee loans are carried at fair value.
 - Under previous GAAP leasehold land were recognised at cost in property, plant and equipment. Under IndiAS, leases of land are classified as operating leases and accordingly amortised over the period of lease.

 Under previous GAAP lease deposits were recognised as other assets. Under IndiAS, lease deposits are carried at fair value.
- Under previous GAAP, revenue relating to EMG (Extended Maintenance Guarantee) and signing fees were recognised at the point of receipt / agreement respectively. Under Ind AS, EMG and signing fees is recognised in the accounting periods in which services are rendered.
- Under previous GAAP, actuarial gains and losses were recognised in the statement of profit and loss. Under Ind AS, the actuarial gains and losses form part of remeasurement of the net defined benefit liability/ asset which is recognised in other comprehensive income. Consequently the tax effect of the same has also been recognised in other comprehensive income under Ind AS instead of the statement of profit and loss.
- The unaudited standalone financial results of the Company for the quarter ended June 30, 2016 have been reviewed by the Audit Committee of the Board and approved by the Board of Directors at their ineeting on August 3, 2016
